ADMITTED FOR SPECIAL DISSESSA-  
N. No. 205, FIFTH STREET, BETWEEN MAIN AND  
Market. Having for several years and noticed the  
value of treatment for Private Diseases, by  
the use of one of the best prescriptions that  
exists, and the cost of treatment, I have  
now determined to present the same to  
numbers, that have less means to sustain the  
attempt of Austin to buy out their country to  
the condition of a province of the Empire. Galicia and  
other Silesian territories submitted the present  
of Parliament, and sent delegates to the Central  
Parliament, and the object of the Emperor  
was to consolidate the Empire and make the Hapsburg  
a despotism ready to send  
delegates or acknowledge the justice of this  
movement. She protested against it, but  
she accepted the need of the country, and  
the most eminent terms, and was  
bent in endeavoring to discover what would  
probably be the end of this resistance to Austria.

Consorts  
Died in a few days, without the use of painful  
remedies. The world was of  
P.L.S.

Yielded the influence of his residence in the shortest  
time, and died in a few days. Dr. Jones makes a stated charge upon examination  
of the body, and the death was attributed to it, and it is  
to be inferred that the disease interested him, and it is  
to be inferred that he died in a few days.

SATURDAY, JANUARY 6, 1865

The outrages and ravages by a race just coming to the newness of life, maimed libertines, are recorded, but not much commented on. We have no blacks for this. It would be hard even for a white man to bear as we do. The negroes have done very well during the war, but behaved much better than the white men. No such temptation could be laid before any other race or people than the Southern rebels.

—Louisville Democrat, 4th.

Local editors note the above carefully. It is a most exacting paper to be used, even in a paper as the Louisville Democrat. Last week it denounces as for declaring that, in our judgment, the reports of negro insurrections would be found "mainly baseless." Now this paper says the negroes have done well "since the war," that they have behaved much better than the white men. It then adds this strange paragraph: "It is not that we do not believe in negroes, but that we do not believe in negroes on any other basis than for their services in producing horrors and savagery beyond parallel." It is not placing the negro "race" above the white race, above "any other race or people" upon the earth, my language can do it. The words are plain and unequivocal as any words can be. That paper which has been charged that we should by and by advocate negro equality, places the negro "race" upon an equality with the white race merely, but above it or "any other race or people."

The late Union Press never uttered a sentiment so thoroughly, so atrociously radical, it never put the negro race above the white or "any other race or people." It simply contended for the equality of the two races—the Democrats say to be placed above the black race above any and every race of people in Kentucky. What do the white men and women of Kentucky think of such language in a paper that sets their support? The quotation we have made from the Democrats is given precisely as it appeared in that paper of Thursday, the 4th inst., without the change of a word, letter, or point. Let the reader peruse it and ask himself if it is not a monstrous sentiment, if it is not a most revolting and most radically racial proof or individual effort in Kentucky or any other State of the Union. We recall but a single individual who has deliberately put such a sentiment at all approximating that contained in the above extract from the Louisville Democrat.

That is Wendell Phillips. He said last spring that the negroes of the South are the poor of the South, but when Wendell Phillips can no longer be influenced, so far as we know, the negro "race" is superior to "any other race or people" as a race. He said that the negroes are ahead of or above the poor whites only. It was reserved for the Louisville Democrat, that pink of Democracy and model of patriotism, to shock the community by boldly and explicitly to assert that "the negro race is superior to any other race or people" once more.

Old men should eat sparingly. Nature teaches this lesson by taking away their teeth.

We arrive at the period of old age now. And you may judge how handsome he is from his having been, as he says, mistaken almost every day for us.

—A Colorado editor, who calls that Territory a Paradise, lauds the women to emigrate. He perhaps forgoes the consequences of woman's introduction into the first Parades.

We are at the period of old age now. And you may judge how handsome he is from his having been, as he says, mistaken almost every day for us.

—We are indebted to Hon. Garrett Davis for official documents.

The Democrat, due to its instinct of trying to thwart the restoration policy of the Administration, to the bitterest radicals of the North, and to keep up strife in the North and South as long as possible, is out in an article where it can only be, if it shall have any effect at all, make the Freedmen's cause an institution in this State. It advises the Legislature to pass laws in reference to freedom so long as they remain in the State. The Bureau will not be withdrawn until proper laws are passed, and it follows, therefore, that if none be passed the Bureau will never be removed. Is that the object the Democrat has in view? It is, why doesn't it say so in many words? Why does it pretend to oppose measures and yet propose and advocate the most extreme in its adoption? The Democrats cannot be made to do this.

The outrages and ravages by a race just coming to the newness of life, maimed libertines, are recorded, but not much commented on. We have no blacks for this. It would be hard even for a white man to bear as we do. The negroes have done very well during the war, but behaved much better than the white men. No such temptation could be laid before any other race or people than the Southern rebels.
